

KTS Practice makes permanent...

year 11 form time workshops

- Over the next few weeks, you will be focusing on **key revision skills** in form time.
- These workshops are designed to **support** you with your mock exam preparation which is **already taking place at home**.
- They **do not** replace your mock exam preparation.
- Today's focus is:

*A picture speaks a thousand
words*

What can you see in this picture?

Now, let's look at the picture through the eyes of a subject...

What flora and fauna is found at each layer of the rainforest and why?

How is a rainforest structured and layered?

What threats face the rainforest?

How do people use the rainforest?

Why are rainforests important?

What are the soils like in a rainforest?

What can people do to protect our rainforests?

How can we use a picture to recall what we have learnt in lessons?

What flora and fauna is found at each layer of the rainforest and why?

Like all men of the Library, I have Travele my youth; I have wandered in search of a book, perhaps the catalogue of catalogues; that my eyes can hardly decipher what write, I am preparing to die just a few l

KTS Practice makes permanent...

year 11 form time workshops

1. Find photographs which link to what you are revising, e.g. a scene from a play.
 2. Look at them closely to see what they show, e.g. facial expressions? Body language?
 3. Think about how the photo links to what you've learnt.
 4. Label it with the stuff you need to know!
- **Remember:** *understanding your subject enough to apply, adapt and scrutinise information is the key to exam success.*
